

ANNEX TO GLOBALG.A.P. GENERAL REGULATIONS SUBLICENCE AND CERTIFICATION AGREEMENT

We hereby agree to extend the content of our Sublicense and Certification Agreement for GLOBALG.A.P. for the participation as Interested Market Participant within the framework of the GLOBALGAP (EUREPGAP) System of Good Agricultural Practice signed between the Contracting Party and the Certification Body, effective from date of signature.

OPERATIONAL AGREEMENTS:

1. DATA ACCESS RULES

The following data access rules apply to the Albert Heijn Protocol for residues version 2 Standard in the GLOBALG.A.P. Database. All additional access rights will be granted to members of the AHP Protocol - Observer Data Access Group. Company membership of the AHP Protocol - Observer Data Access Group is maintained on behalf of Ahold.

All access rights are automatically adjusted and do not have to be set individually by the Certification Body.

1.1 The Albert Heijn Protocol for residues participating producer grants the AHP Protocol - Observer Data Access Group access to the company name and company address, comprising street address, postal address, postal code, city and country, as entered in the GLOBALG.A.P. Database.

1.2 The Albert Heijn Protocol for residues participating producer grants the AHP Protocol - Observer Data Access Group access to the quantity data, comprising first harvest covered/non covered and further harvest covered/non covered, of all products in a visible status under the GLOBALG.A.P. IFA Standard as entered in the GLOBALG.A.P. Database.

1.3 The Albert Heijn Protocol for residues participating producer grants the AHP Protocol - Observer Data Access Group access to the quantity data, comprising estimated yield, of all products in a visible status under the Albert Heijn Residue Protocol Standard as entered in the GLOBALG.A.P. Database.

1.4 The Albert Heijn Protocol for residues participating producer grants the AHP Protocol - Observer Data Access Group access to the checklist of the Albert Heijn Residue Protocol Standard as entered in the GLOBALG.A.P. Database as soon as the checklist is implemented
